AMALGAM

A VIRTUAL ART EXHIBITION

OF

INTERDISCIPLINARY PROJECTS

2020-2021

The mixture or blend of two or more things is known as amalgam. The exhibition that we are going to view today is taking forward the same spirit of bringing knowledge, art and other subjects together to become a strong element.

The works that are on display are created by the students of SRWS. These are the projects that were initiated under the umbrella term 'Art Integrated Learning' in the respective subjects launched by the CBSE, based on the National Policy of Education. Art integrated education is creating joyful classrooms for imbibing the Indian ethos through integration of Indian art and culture in the teaching and learning process at every level.

Since Delhi is paired with Sikkim, the exhibited works reflect all the hues and tones of the nature, monuments, culture and food of Sikkim only. The exhibition has whirlpools of ideas that will immerse the viewer's intellect in wonder. Disconnected physically from a structured leaning and connected through computer and mobiles what our students have brought to the fore is unimaginable. When they are factually working together in school with their peers and mentors, the result will be definitely unprecedented and that's what we are looking forward to in the coming years.

For now let's take a view of this expedition though our 'phone and computers' and be a part of this with us by clicking the link to view the wonder work.
