"Rather than fearing or ignoring cyber attacks, do ensure your cyber resilience to them."

In this digital world, where children are increasingly wired to social media and the internet, the concern for cyber security and cyber bullying are pertinent.In this direction a workshop on '**Cyber Crime and Cyber Safety**' was conducted for the students of classes III to VI.

The students were introduced to various terminologies like Cyber Bullying, Hacking, Phishing, Data Theft, Digital Frauds, Cyber Extortion etc. and they were also told about the legal aspects of accessing the internet like the legal age, ethics and rules of using social media and gaming.

The session was concluded by sharing some tips for internet banking and safe online transactions and also some measures about how to avoid Cyber Bullying.

 Internet is a technology, not a toy and we should harness it carefully. Your safety is in your hands. Stay alert, stay safe!
