Thank you so much ma'am for putting in all the efforts. There is a positive change in Myra not only academically but also she has improved as a person. It is very important and difficult at times to give honest feedback. All new concepts have been introduced to kids very well prepared by relating it to some art or practical way. Giving personal attention to each child that too on this platform is commendable.

**Ms Neerja Bakshi (Mother), Myra Bakshi, Class II B**

We are very satisfied with pattern of classes and studies. Teachers are very co- operative and the way they handle the children is very impressive and good. Online training of kids itself sounds an impossible task but I don't have the words to express, how Ruchi Ma'am handles and manages the class. “ English- My daughter has picked up almost all the letters (small case) during the last few months. The pedagogy used is very different it makes it easy for the child to form letters. In fact, Ayesha keeps noticing how different letters are written in the newspaper and books.

Maths- The interactive way of teaching number writing is helpful, she has effortlessly started to write 5 (Thanks to neck, belly and hat) and even number 8.

Hindi- In Hindi Ayesha is picking a number of words. She specially remembers the swar/vyanjan where Ma'am made extra efforts to making them draw or create a paper craft or narrated a story (like Ekta story or Nanda story).

EVS & GK - These are also covered in detail with discussions, presentations, and videos. My daughter really looks forward to the story telling sessions on Zoom, with Zoom features (filters etc) and Arty stuff used during the stories it really enhances the level of attention of the child.

Keep it up.

I would also like to appreciate the efforts put in by the Class In Charge Renu Ma'am who organised the Festival Friday Sessions, both my daughter and I really had a memorable Diwali, Children's Day and Christmas virtual celebration, all thanks to Ma'am. All the teachers are doing an incredible job. I am satisfied with the teaching pedagogy adopted as well as the personalized attention given to the students. Kudos to all!
